Custom Colours?

If you're after a custom colour, either:

- Head to Bunnings and browse the colour options and bring us the sample swatch you like, or,
 - Tell us the exact name and brand of the paint you want.
- Prices vary.

Our design process includes full 3D schematics.

If you want a custom set of planter boxes that include complex design elements - we can provide you with full 3D plans, for low flat rates. This ensures you get what you want.

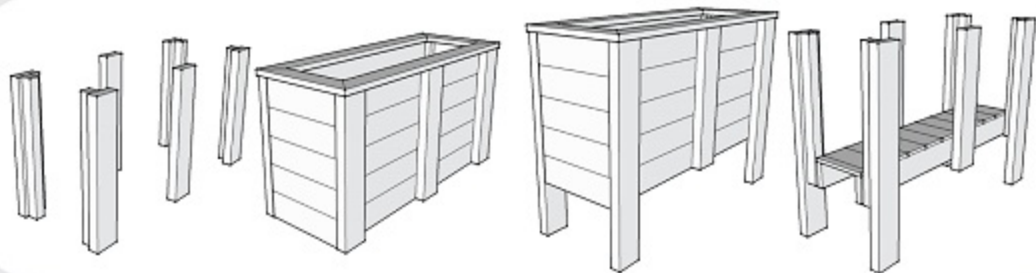

The plans below show how our boxes are fully framed, in both open bottom planters and planter boxes with raised decks.

This increases cost somewhat - but can more than triple the lifespan of your boxes.
